

# ABX W65

## ARCHITECTURAL BRONZE

DISCLAIMER: Technical drawings are for guidance only

W65 series is the ideal solution for windows, balcony doors and doors with high performances. The thermal break is obtained by an innovative technology that guarantees excellent resistance to weather agents and give the thermal comfort as per actual standards. Slim dimensions and good resistance of profiles give the opportunity to realize large openings without compromise the easy functioning. Available in many different typologies, arched included, and in any Astec finishes.

ABX® W65 and  
European CE Mark

Typology:  
fixed unit

Size:  
2935x3435h mm

Air permeability  
(EN 1026 - UNI EN 12207)  
Class 4

Watertightness  
(EN 1027 - UNI EN 12208)  
Class E1800

Resistance to wind load  
(EN 12211 - UNI EN 12210)  
Class C4

ABX® W65 and
